

Eco - Newsletter - Spring 2014

Our Eco-warriors are pleased to let you know that our school has been awarded our BRONZE award!! The certificate is proudly displayed in the entrance hall for all to see.

We are now working towards obtaining our SILVER award. The Eco- Warriors are now meeting up on a regular basis to put our action plan into place.

We are asking for donations of seeds/flowers/bulbs please. Unfortunately our storage box/collection of seeds ready to plant in spring, has been water damaged with all the rain over winter. So if you could send into school, packets of seeds, e.g. flowers/beans/peas/sun-flowers/wild flowers/strawberry plants etc then our 'green fingers' can get them growing and we would be most grateful. Please send into either Mrs Aspin or Miss Summers, thank you.

The RSPB bird watch has been completed and we recorded far more birds than last year despite such a wet winter. Thank you for all your contributions of feed, please continue to send bird seed in as we are continuing to feed them all year.

Part of our action plan to obtain SILVER award is to reduce the amount of rubbish we produce each day at school. Parents can help us with this by sending less packaging in lunch boxes. Thank You for your support with this.

We will be participating in the 'Walk to School Week' during Science and Engineering week in March. Also trying to 'Switch-Off' electrical items to again save energy, you could join in at home with this to help save energy at home. Further details will follow.

Thank You for your support and help.

Mrs Aspin & Miss Summers
